CAUSE

On June 7, 2005, the offender tested positive for cocaine. During an office contact on June 22, 2005, the offender admitted to cocaine use and informed she was experiencing feelings of depression and anxiety. The offender is currently receiving outpatient drug treatment at the Counseling Service, Eastern District of New York. She attends treatment three times per week, and submits to random drug testing at least two times per week. The offender has developed positive relationships at the program and requested to continue attending that program for substance abuse treatment.

The offender requested mental health treatment to be able to talk with someone about her feelings. Although the Counseling Service referred the offender for a psychiatric evaluation, and she was deemed appropriate for mental health counseling, the offender reported that traveling to the Manhattan program would be difficult. Since the offender would continue to attend the Counseling Service for substance abuse treatment, she would be referred for another evaluation at one of our contract agencies, Clearway, to determine the extent of her mental health dysfunction. If mental health treatment is recommended, the offender would receive mental health treatment at Clearway in Brooklyn.

Attached is the Probation Form 49, Waiver of Hearing to Modify Conditions, signed by the offender voluntarily agreeing to mental health treatment.

Respectfully submitted by,

  
Tanya M. Parris  
Senior U.S. Probation Officer
